Copyrighted 1959, McGraw-Hill Publishing Company, Inc.

GENERAL ALPHABETICAL INDEX

Volume 150 July-December 1958

A

Accounting

Central P&L visible accounting system provides customer data at a glance Aug. 18 ..... *88
Duke Power gets IBM equipment (N) Sept. 8 90
Guercken, G. P. scores original-cost accounting at N. J. Utilities Assn. meeting Dec. 15 ..... *39
Modernize service functions to meet future growth—Computer changes handling of utility data. F. J. Kovalcik (table) Oct. 27 ..... *66
3 utilities switch to computers for billing customers
Detroit Edison—Putting a computer to work involves many adjustments. T. E. Hurns, Nov. 24 ..... *54
Wisconsin Electric Power—Medium computer proves its value. J. G. Cadby, Nov. 24 ..... *57
Ohio Edison—Switch customer billing to electronic punched cards. G. J. Gluck, Nov. 24 ..... *60

Advertising (see also Public Relations)

ECAP ad hearing postponed; more explicit ruling seen (N) Sept. 15 43
ECAP tax hearing—early postponement foreseen (N) Dec. 15 28
The ECAP tax ruling: only the beginning (Ed) Aug. 4 51
Editors asked to back TVA ad (N) July 28 49
Newspapers' ad not a business expense (Ed) July 28 47
"Supermarket" ad sells kwhrs to female mind Aug 11 78
Utilities to have after-the-fact say in IRS ruling on ECAP advertising (N) Aug. 25 56

Air Conditioning

Air conditioning ends quality control problem at GE electronic tube plant. H. H. Turner Jr., Dec. 29 ..... *51

Air Pollution (see also Fly Ash)

AEIC meeting—Report of Committee on Air Pollution. G. V. Williamson, Nov. 24 ..... *94
Air pollution: tougher controls on the way? (N) Dec. 8 ..... *64
Bleak picture painted of air pollution problems (N) Dec. 1 28
EEI begins joint study of air pollution and tree problems (N) Sept. 1 43
Los Angeles adopts smog rule to limit burning of fuel oil (N) Nov. 24 66
Louisville sulphur control try dies (N) Oct. 13 62
Stack plume invisibility is achieved by Koppers Co. Dec. 29 ..... *70

Alaska

Hydro potential spurs big plans for 49th state (N) (map) July 28 49
REA approves $14-million in loans for projects (N) Oct. 6 70

Appliances

AEIC meeting—Report of Appliances and Servicing Committee. G. W. Ousler, Nov. 24 ..... *53
Long Island Lighting Co. quits merchandising (N) July 7 80
Tampa Electric has appliance service center. V. S. Price, Oct. 13 ..... *118
Westinghouse's 'thermo-electrics' may open new sales vistas (N) July 21 116
Whirlpool plans four developments for 1959 Dec. 15 72

Area Development

Private-enterprise TVA approach to regional development suggested (N) Aug. 18 62
Report on area development July 7 73
Report on area development—business paper helps 10 cities "pull together" Aug 25 102

Argentina

Government ends 10-yr. squabble with American & Foreign Power Co. (N) Dec. 15 29

Associations

AEIC meeting report Nov. 24 ..... *52
AEIC meeting—The president's address. W. C. Beckjord, Nov. 24 ..... *52
AEIC studies residential load (charts) Nov. 24 89
AIEE answers meeting criticism Aug. 18 ..... *62
AIEE computer session in Canada to explore digital uses (N) Aug. 4 140
AIEE conference—computer users offered programs, Oct. 20 82
AIEE needs a stronger Summer Meeting (Ed) July 14 45
AIEE Pacific General Meeting told zig-zag ring-bus saves Sept. 22 ..... *97
AIEE Summer General Meeting July 28 ..... *54
AIEE Summer General Session—L. F. Hickernell elected president (N) July 7 ..... *37
ASME medal to Wilbur Armacost (N) Sept. 8 90
American Farm Bureau Federation 40th annual convention (N) Dec. 22 42
American Right of Way Association meeting cites management's role July 14 ..... *114
CEMA 14th annual meeting (N) Oct. 27 90
CIGRE meets in Paris—focuses on transmission. J. H. M. Sykes, July 7 ..... *40
EEI Accident Prevention Committee meeting (N) Dec. 8 82
EEI begins joint study of air pollution, tree problems (N) Sept. 1 43
EEI's Electric Living Program set for February debut (N) Sept. 22 96
EEI—NELP needs solid support (Ed) Dec. 29 33
EEI power survey report (charts & table) Nov. 17 129
EEI's president Jack Corette's '58 recap—industry's encouraging stability and progress cited (N) Dec. 29 ..... *34
EEI reports on U.S.S.R.'s power picture (N) Nov. 10 ..... *60
EEI studies capacity plans (N) Nov. 10 63
EEI takes issue with A-plan (N) Nov. 17 67
EEI T&D Committee meeting—Brieger urges utilities to study flicker limits (chart) Nov. 3 49
EEI T&D Committee meeting—Con Ed displays equipment (N) Nov. 3 ..... *103
EEI 24th Semi-Annual Electric Power Survey (table) Dec. 15 46
EEI unveils "National Electrical Living Program" (N) Dec. 15 ..... *26
EEI visiting utilities with new program plans (N) Oct. 13 63
First National Conference on the Application of Electrical Insulation to be held Sept. 3 (N) Aug. 4 100
IEA convention theme: U.S.S. encroachment (N) Oct. 27 ..... *64
IBE women's confab scheduled for Jan. (N) Nov. 17 122
Management Conference of the Utility Companies of Iowa meeting (N) Oct. 27 64
NEMA—Joseph L. Singleton elected president (N) July 14 ..... *47
NEMA—Meet Joseph L. Singleton new president (N) July 21 ..... *58
NEMA head, W. V. O'Brien, dies (N) July 14 ..... *48
NEMA scores imports (N) Dec. 29 70
NEMA 32nd annual meeting (N) Nov. 17 ..... *69
NRECA—The Ellis proposals: politics and power (Ed) Oct. 13 59

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.

NRECA—"The little old man and a little old plan"—speech by Clyde Ellis, Sept. 29 87
NRECA's Ellis urges sweeping law changes (N) Sept. 22 ..... *95
National Association of Railroad & Utilities Commissioners 70th annual convention (N) Dec. 15 ..... *24
New Jersey Utilities Association meeting—Guercken scores original-cost accounting Dec. 15 ..... *39
Northwest Electric Light & Power Association annual convention sees modernization outlays up Oct. 13 ..... *66
PCEA annual convention July 14 ..... *118
PEA 51st annual convention (N) Oct. 6 ..... *68
PEA told Portland Station plant start successful (N) Nov. 3 50
PIP Workshop Conference (N) Dec. 15 ..... *25
Power Show scheduled for New York Coliseum (N) Sept. 22 130
Rocky Mountain Electrical League annual convention (N) Oct. 13 ..... *134
SEE Engineering & Operating Section meeting (N) Dec. 1 ..... *30
SEE meeting urges creative selling Dec. 29 78
Texas Power Distribution Conference (N) Nov. 10 ..... *63
To AIEE members and fellows (only) (Ed) Sept. 29 45
Too many industry conferences? (Ed) Dec. 8 63
Wisconsin Utilities Association—time to wake up, utility groups told (N) Nov. 3 50
World Power Conference aligns U. S. speakers for 15th meeting (N) Aug. 25 57
World Power Conference and International Commission on Large Dams—power is theme as two international groups meet Sept. 29 ..... *54

Atomic Energy (see **Nuclear Power**)

Atomic Energy Commission

A-power hassle "makes no sense" declares AEC chief McCone (N) Nov. 3 ..... *44
Authorization bill passed (N) July 21. 60
Detroit Edison's Fermi plant gets conditional backing (N) Dec. 22 ..... *40
First plutonium-fueled reactor goes critical (N) Sept. 1 45
HRE-2 operates effectively despite leak (N) Aug. 25 54
Idemnity loopholes hit (N) Dec. 1 28
Invites proposals for design studies on heavy-water reactor capable of operating on natural uranium fuel (N) Sept. 8 60
McCone, John A.—new chairman sworn in (N) July 21 ..... *59
Moves to accept atomic insurance of two groups (N) Sept. 8 60
Preliminary design and development with Nuclear Development Corp. extended (N) Sept. 8 112
"Red tape" investigation of AEC to pressure fund flow (N) Dec. 15 29
Schedules review on gas-cooled reactors (N) Oct. 20 144
Selects more reactor concept study proposals (N) Dec. 29 36

Awards

ASME medal to Wilbur Armacost (N) Sept. 8 90
Edison Award nominees chosen by review committee (N) Dec. 29 ..... *37
Ohio Power Co. cited by co-op (N) Nov. 24 ..... *51

B

Boilers

Allis-Chalmers ships large condenser with tube installed (N) Aug. 18 ..... *93
Aluminum covers boiler insulation at Ohio Power's Muskingum River plant July 14 ..... *62
Babcock & Wilcox builds boiler for Iowa Electric L&P (N) Oct. 27 90
Combustion Engineering Inc. to supply eighth boiler to VEPCO (N) Aug. 4 100

Bonneville Power Administration

Considers sale of "non-firm" energy to California (N) Nov. 24 50
Neuberger, Sen. R. L. asks new look at BPA preference clause (N) Nov. 17 71
Offer to sell "non-firm interruptible" energy to California will get careful attention says PG&E (N) Dec. 29 100

Bureau of Reclamation (see **Reclamation Bureau**)

Buses

Bundled cables save on 110-kv bus. S. R. Hart Jr., Dec. 22 ..... *54
Calculate secondary bus faults with nomograph. H. C. Van Horn (R) July 28 60
Delta-Star buses run gamut of tests (N) Dec. 1 ..... *44
Insulator provides fault bus protection for Cincinnati G&E. C. W. Beringhaus, Sept. 1 ..... *54
L-shaped grooved bus developed by Alcoa (N) Aug. 25 74
Zig-zag ring-bus saves AIEE told Sept. 22 ..... *97

Bushings

GE introduces interchangeable bushing line (N) Nov. 3 ..... *70
Handling made easier at Houston L&P AUG. 25 ..... *64
One-piece weathercasings made for 345-kv bushings (N) Nov. 3 ..... *78

C

Cables

Bundled cables save on 110-kv bus. S. R. Hart Jr., Dec. 22 ..... *54
Divers' work preserves cables. J. E. Logan Dec. 22 ..... *79
Four 9,000-ft oil-filled cables link states across Lake Champlain Sept. 29 ..... *52
Lake Champlain crossing links St. Lawrence to Vermont (N) Aug. 11 ..... *39
Locate pipe-cable faults automatically. C. B. Bechtel, Sept. 15 ..... *55
Mineral-insulated heating cable application. J. W. Bean (R) I Oct. 6—96, II Oct. 20 102
Mylar rope serves long pull of cables (N) Aug. 4 ..... *102
New Zealand is test site for 250-kv d-c cable (N) July 14 76
Okonite Corp. cable bid for Niagara Power is lowest (N) Sept. 15 64
Okonite furnishes cable for Metropolitan Edison's Portland, Pa. station (N) Oct. 13 88
Okonite Co. ships 2½-mile submarine cable (N) July 7 ..... *62
Plastics improve 33-kv cable terminals. J. J. Rueckert, Dec. 29 ..... *58
Polyethylene cable used by Marblehead (Mass.) Municipal Light Dept. (N) July 7 ..... *65
Rome Cable institutes "hot" pickling (N) Sept. 8 ..... *88
Spectrometer, helium spot cable leaks. Collins & Gillette, Dec. 22 ..... *94
Transistor probe locates buried cable. Carla Baroccio, Dec. 1 ..... *37
U. S.-Europe submarine cable to be laid in 1959 (N) Aug. 25 77
Winch relocates pipe type cable. Kline & Wells, Dec. 22 ..... *86

Canada

British Columbia's Rocky Mountain Trench area promises 3,000 Mw (map) Aug. 18 116
"Buy Canadian" campaign used by electrical industry (N) July 14 81
CEMA told profit is 3.2%, other markets studied (N) Oct. 27 90
Manufacturing goes over billion dollars (N) Nov. 3 74
Wenner-Gren hydro-metallurgical development—announcement of first project will be made in Sept. (N) Aug. 11 39
Work starts on redesigned reactor (N) Sept. 8 ..... *59

Capacitors

Power factor related with corrective capacitor. L. B. Stein Jr. (R) Aug. 11 54
Southwestern G&E installs switch secondary capacitor banks. L. T. Williams, Sept. 29 ..... *68
Switch controls capacitors thermally at Oklahoma G&E. H. C. Denison, Dec. 22 ..... *98

Capacity Additions

American Electric Power Co. addition at Clinch River Plant—AEP passes 5-million kw mark (N) Oct. 13 ..... *62
Countries with the greatest installed capacity—1957 (N) (table) Sept. 1. 42
Detroit Edison ups capacity at River Rouge with new unit (N) Nov. 3 ..... *48
EEI studies capacity plans (N) Nov. 10 63
Modernize transmission to boost capacity—report. D. T. Braymer (charts & tables) Oct. 13 ..... *67
Niagara-Mohawk Power Corp.'s Huntley Station—plant modernization ups capacity. F. S. Helfter, Dec. 1 ..... *36
9th annual electrical industry forecost 1958-1975. A. J. Stegeman (charts & tables) Sept. 2 101
Outlook for 1959 report—Units to fit the need (chart) Dec. 29 48
Rocky Mountain utilities plan coordinated growth (N) Oct. 6 67
U. S. power pace increasing over Soviets (N) (charts & table) Sept. 1 42

Carrier Current (see **Communications, Controls**)

Circuit Breakers

Cole Electric markets oil circuit breaker (N) Dec. 15 54
Federal Pacific sends 250,000-kva ic breaker on tour (N) Oct. 6 ..... *100
GE reports on tests of oil-filled breaker (N) Sept. 22 130
GE reports on 230-kv breakers (N) July 28 70
Standard circuit breaker foundation saves time at Long Island Lighting Co. E. C. Vitelli, Sept. 15 54
Westinghouse breakers of 2,500 mva and 250 mva installed (N) July 28. 75

Commercial Applications

Diner owner continues to go all-electric. T. W. Scully, Dec. 1 ..... *58
Electric car bandwagon gets in gear (N) Oct. 20 ..... *78

Communications

Alarm system calls attended phone (N) Dec. 8 ..... *82
GE broadens product use (N) Dec. 29 *74
Lorain-Media Rural Electric Co-op line outages reported by radio. K. B. Crawford, Sept. 15 ..... *53
Modernize service functions to meet future growth—The need for communication will expand. F. J. Kovalcik, Oct. 27 ..... *72
Motorola to supply nine-station microwave system (N) Aug. 4 102
Motorola two-way mobile radio is transistorized (N) Aug. 25 74
Pocket receiver and transmitter introduced (N) Sept. 8 90
Tone-coded squelch stops skip interference for Central Illinois PS Sept. 8 74
Utilities oppose FCC plan for radio frequency change (N) Aug. 11 89
Westinghouse installs fully automatic communication system (N) Dec. 1 44

Computers

AIEE conference—computer users offered programs Oct. 20 82
The analog or digital computer? Squires & Rindt July 7 ..... *53
Automatic data logging expected to cut costs at NYSE&G's Milliken station. S. A. Lyon, Dec. 22 ..... *46
Automatic data handling next step toward ultimate in station operation. Hammond Ladd Jr., Dec. 22 ..... *45
Compilers ease digital programming. Carleton & Baldwin Jr., Dec. 1 ..... *33
Computer data swap urged (N) Sept 29 48
Computer solves dc load flows. H. D. Hurles, Dec. 8 ..... *75
Computer speeds selection of broken conductor crossing clearance for U.S. Bureau of Reclamation Swain & Austin (charts) July 7 48
Digital computer calculates transient stability problems G. W. Stagg & others Sept 1 ..... *49
Digital computer program saves in controlling voltage on feeders. H. K. Amchin & others, Sept. 15 ..... *48
Electrodata 101 computer analyses loop circuit. Pollock & Taylor (tables) Dec. 22 ..... *43
Extend use of digital computers to automate system studies. Tsai Haw Lee (chart) Nov. 10 68
Flow-Matic codes digital computers automatically (N) Sept. 29 74
Modernize service functions to meet future growth—Computer changes handling of utility data. F. J. Kovalcik (table) Oct. 27 ..... *66
Photoelectric principle replaces computer brushes (N) Dec. 8 86
3 utilities switch to computers for billing customers
Detroit Edison—Putting a computer to work involves many adjustments. T. E. Hurns, Nov. 24 ..... *54
Wisconsin Electric Power—Medium computer proves its value. J. G. Cadby, Nov. 24 ..... *57
Ohio Edison—Switch customer billing to electronic punched cards. G. J. Gluck, Nov. 24 ..... *60
A word of caution on computed savings (Ed) Nov. 10 55

Condensers

Allis-Chalmers ships two large condensers to utilities (N) Sept. 29 79
Foster Wheeler to build 210,000-sq ft condenser (N) Oct. 20 108
Gas-steam hydro plant of Crisp County Power Comm., Ga., uses Wheeler condenser (N) July 7 62
Large and welded-tube A-C condensers started (N) Sept. 22 ..... *122

Conductors

Bundled cables save on 110-kv bus. S. R. Hart Jr., Dec. 22 ..... *54
Equivalent diameter, inductance and reactance determined for stranded conductor. F. C. De Weese (R) July 14 64
Peeler removes insulation quickly. Shirley & Brenner, Oct. 27 ..... *63
Preformed Line Products devices usable on AAAC, 5005 conductors (N) July 7 66
Sherman & Reilly designs lined sheaves (N) Oct. 13 ..... *88

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.

Connectors

Dossert Mfg. Corp. broadens connector line (N) Aug. 4 ..... *100
Royal Electric produces stud-bar connector (N) Oct. 20 ..... *108

Construction

Atlantic City Electric Co. converts 34.5-kv stub feeder to 69-kv suspension type line. M. J. Doody, July 7.. *43
Basic structures cut substation cost. M. A. Harkness, Dec. 1 ..... *40
British use concrete substations. John Shinn, Dec. 15 ..... *31
Cable rig aids 230-kv stringing Dec. 22 ..... *86
Ceneral P&L solves slack span problems Dec. 22 ..... *91
Commonwealth Edison Co. stringing block simplifies reconductoring. A. McAuley, July 28 ..... *59
Concrete specifications cover all phases (R) Sept. 22 118
Consumers Power Co., utilizes old poles to build inexpensive garage Sept. 22 ..... *98
Electric utility methods—report Dec. 22 ..... *57-124
Four 9,000-ft oil-filled cables link states across Lake Champlain Sept. 29 ..... *52
Houston P&L's line across Galveston Bay—tower line wins out over submarine cable. J. H. Horn, Aug. 4.. *62
Idaho Power Co.'s Brownlee Dam—big net, skimmers, installed Oct. 13. *64
Long Island Lighting Co. lowers construction costs with fiber forms. J. J. Fauls, Aug. 11 ..... *48
Modernize distribution to improve service—Mechanization spreads to speed line construction, save money. Allen & Olmsted, Oct. 20 ..... *96
Modernize service functions to meet future growth — Growing room gained in new office buildings. F. J. Kovalcik, Oct. 27 ..... *74
New methods speed line construction C. F. Hochgesang (report) Aug. 18. *65-80
Helicopter dispenses with roads in transmission line building. O. N. Kulberg & others Aug. 18 ..... *66
Copter speeds distribution lines. M. A. Kirsch & others Aug. 18 69
Commercial copters carry 2-ton loads Aug. 18 70
Construction techniques modernized for EHV Aug. 18 ..... *70
Big augers, cranes speed lines. J. F. Servis, Aug. 18 ..... *73
Holds down 230-kv line costs. Allen & Roberts, Aug. 18 ..... *78
9th annual electrical industry forecast 1958-1975, A. J. Stegemen (charts & tables) Sept. 22 101
Plant foundations of Cornbelt Power Co-op will be built on sand compacted by Vibroflotation (N) Aug. 25 78
Public Service Electric & Gas Co. Newark substation will have eye appeal Nov. 10 ..... *67
Pulley block helps raise insulator strings at Long Island Lighting. W. Seaman, Nov. 10 ..... *70
Rebuilding H-frames saves money at Virginia E&P Dec. 29 ..... *60
Reynolds Metals Co. opens $11.5 million building (N) Sept. 15 ..... *60
Should plant be indoor, outdoor? H. S. Schweikart, July 28 66
Skidding and stubbing relocates energized H-frame structures Sept. 15 ..... *54
Southwestern Gas & Electric special mud firms up tower footings July 21 *67
Special bucket digs tower grillage pits Dec. 22 ..... *88
Standard breaker foundation saves time at Long Island Lighting Co. E. C. Vitelli, Sept. 15 54
Tampa Electric Co. Unit 1 at Gannon Station goes in for $112 per kw. Hopkins & Jones, Sept. 15 47
Transmission towers moved on rollers over special tracks Dec. 22 ..... *84
Winch relocates pipe type cable. Kline & Wells, Dec. 22 ..... *86

Controls

Automatic data handling next step toward ultimate in station operation. Hammond Ladd Jr. Dec 22.. *45
Carrier current controls diesel generator unit at Commonwealth Edison. H. A. Smith Dec. 22 98
Con Ed's control system to be built by Panellit (N) Dec. 1 44
Control unit finds air heater hot spots. E. N. Schwalje Nov. 17 ..... *94
Lamps supervise water treatment. Ruff & Marshall July 7 ..... *46
New techniques in relaying—report David Rea (charts) July 14...*49 60
Microwave relaying covers system of 6 lines with 17 terminals. Droege & Olson July 14 50
Dc microwave protects 3-terminal circuit. Robichau & Roby July 14 52
Extend pilot-wire relay range. Jackson & Callin July 14 56
Protects autotransformer tertiary. R. J. Labrie July 14 60
N. Y. State E&G's Milliken operations logged at Power Exhibition (N) Dec. 22 ..... *130
R&IE develops control for interrupter switch (N) Aug 4 102
Switch controls capacitors thermally at Oklahoma G&E. H. C. Denison Dec. 22 ..... *98
Three ways to limit circulating current in paralleled regulators from Detroit Edison. H. C. George Aug 25 *62

Cooperatives (see also **Rural Electrification Administration**)

Comptroller General Campbell reconsiders REA ruling (N) Aug. 18.... *60
Comptroller General ruling could forbid REA loans to make rural electric co-ops competitive with private power (N) Aug 11 35
'The little old man and a little old plan'—speech by Clyde Ellis of NRECA Sept. 29 87
Moon Lake Electric Assn., Inc. proposed 115-kv line—REA loan raises 64,000-kw question (N) July 14... 46
National Rural Electric Cooperative Assn.'s Ellis urges sweeping law changes (N) Sept. 22 ..... *95

Corporate Changes

Anaconda-Jurden Associates Inc. formed as new subsidiary of The Anaconda Co. (N) Sept. 22 124
Central Maine Power gets OK to buy Rumford Light (N) Oct. 27 62
Federal Pacific Electric acquires Toronto licensee (N) Aug 4 102
Hubbard & Co. acquires Electrical Engineers Equipment Co. (N) Oct. 20 110
I-T-E acquires stock of Canadian Porcelain Co. Ltd. (N) July 7 66
Idaho PUC approves sale of Cascade Natural Gas Co. distributing facilities in Lewiston to Washington Water Power (N) Sept. 8 60
Kennecott Copper plans acquisition of Okonite Co. (N) Oct. 27 90
Mergers . . . planned and completed (N) Dec 8 86
Merger proposed by Sylvania, General Telephone Corp. (N) Nov. 24 70
Ohio Brass Co. and J. H. Holan Corp. contemplate merger (N) Sept. 15.. 60
Orangeburg Mfg. Co. purchased by Flintkote Co. (N) Oct. 13 92
Pacific P&L purchases facilities of Pan-American Petroleum and Shannon G&E (N) Sept. 8 60
Rumford Light Co. will become district of Central Maine Power (N) Sept. 15 101
Southwestern PS sells out gas and water properties to Lea County, N. M. Gas Co. (N) Sept. 1 79
System acquisitions face balloting (N) Sept. 29 46
Worthington Corp. decentralizes, realigns work sales forces (N) Oct. 6 108

Corrosion

Plastic stops corrosion, cuts costs for New Orleans PS Dec. 29 66

Costa Rica

President Echandi would take steps to nationalize American & Foreign Power Co.'s installation (N) Oct. 6 70

D

Defense

Simulated A-bomb attack finds inventory slack (N) Aug. 4 55

Diesel Power

General Motors demonstrates La Grange diesel-electric plant (N) Nov. 24 ..... *72
RMEL gives case for diesel peaking (N) Oct. 13 ..... *134

Distribution

AEIC meeting—Report of Committee on Power Distribution. J. A. Tenbrook Nov. 24 ..... *94
Aluminum gin poles reduce manpower Dec. 22 ..... *112
Aluminum tap developed by AMP (N) Sept. 1 ..... *61
Asplundh develops insulated aerial lift (N) Oct. 6 100
Central P&L solves slack span problems Dec. 22 ..... *91
Commonwealth Edison Co. merger motivates standardized trouble reports. G. G. Bailey Sept. 8 ..... *62
Commonwealth Edison Co. network changes bring savings for downtown Chicago supply system. J. D. Jacobson (chart) July 28 62
Consumers Power Co.'s 46-kv reclosers improve service economically. C. R. French Aug. 4 ..... *59
Decatur, Ill.—pole congestion, load growth bring underground network Butler & Schroeder (table) Dec. 8.. *72
Digital computer program saves in controlling voltage on feeders. H. K. Amchin & others Sept. 15 ..... *48
Higher secondary voltage will encourage use of fossil fuels by customers (N) July 14 116
In distribution it's time for basic planing (Ed) Oct. 20 75
Indiana & Michigan Electric method makes winch-line loops in 6 minutes. E. A. Grim Aug 25 ..... *66
Kansas City P&L averts outage by quick pole work on duct-line sling (N) Oct. 6 ..... *67
Mobile 75-kva unit provides flexibility at New York State E&G. H. E. Tuthill Aug. 18 ..... *84
Neoprene-lined sheaves undergo tests at Sherman & Reilly, Inc. (N) Nov. 3 ..... *74
9th annual electrical industry forecast 1958-1975 A. J. Stegemen. (charts & tables) Sept. 22 101
Ohio Power demonstration shows need for clean splices. H. K. Johns Nov. 10 ..... *70
Outlook for 1959 report
Goals depend on ability to measure Dec. 29 44
More underground coming as costs are trimmed Dec. 29 ..... *46
Photo technique eases aesthetic study. M. W. Stumpf Dec. 1 37
Plan '59-Modernize now for growth and profits
Modernize distribution to improve service. Allen & Olmsted Oct. 20 *83-98
Neat apperance marks modern distribution Oct. 20 ..... *84
Operation and maintenance are mechanized Oct. 20 ..... *86
Sample testing spurs meter modernization Oct. 20 ..... *88
Develop economical designs Oct. 20 *90
Voltage regulation engineer has new tools Oct. 20 ..... *92
Modern system is reliable Oct. 20.. *94
Mechanization speeds modern construction, saves money Oct. 20.. *96
Safety practices go modern Oct. 20 *98
Plastic inserts help find faults. J. J. Rueckert Nov. 24 ..... *65
Polyethylene cable used by Marblehead (Mass.) Municipal Light Dept. (N) July 7 ..... *65
Reclosers—can they replace breakers? E. L. Leinbach Nov. 24 62
Roebling adds 15-kv aerial spaced cable system (N) Dec. 1 46
Rome Cable to introduce overhead primary distribution system (N) Nov. 24 70
San Antonio PS meter crews store hot stick in special container Dec. 8.. *83
Service cables lashed with rods reduce labor at Arkansas P&L. R. W. Toler July 28 ..... *58
Still needed: a decision on higher service voltage (Ed) Dec. 1 23

Store mast arms on special bunk-bed racks Dec. 22.....*124

Metals

Alcoa bonds aluminum and steel (N) July 28 72
Alcoa Massena plant potline begins operation (N) Sept. 15..... 67
Aluminum—U. S. production (N) Sept. 22 128
Anodized aluminum wire promising for windings (N) Nov. 10..... 84
Duke Power saves $10,250 on aluminum reclaiming. J. E. Chapman, Sept. 29 ..... *64
Harvey Aluminum starts production at The Dalles, plant (N) Sept. 2.... 128
Ormet's aluminum reduction plant starts production (N) Sept. 8..... 88

Meters and Measuring

AEIC meeting—Report of Meter and Service Committee. J. S. Lineback, Nov. 24 ..... *94
Bailey Meter duplicates data-logging system for Power Show (N) Dec. 1. 46
Calibrated stopwatch checks sag. P. C. Evans, Dec. 22..... *82
Electronic telemetering system for measuring the water content of mountain snowpacks developed (N) Nov. 10 84
Electronics speed kwhr meter test. C. A. Antonelli, Sept. 1..... *51
Level and micrometer gauges hot shaft alignment at Union Electric. E. A. Rudulph, Dec. 22..... *76
Meter socket change saves $100. Koch & Thomas, Aug. 18..... *86
Modernize distribution to improve service—Sample testing spurs meter modernization. Allen & Olmsted, Oct. 20 ..... *88
Molded current transformers give neat-appearing metering installations. Brown & Edwards, July 21.. *67
Outlook for 1959 report—Sample testing leased way, other improvements coming Dec. 29..... *44
Photometer detects ion impurities Sept. 29 ..... *71
Read tie-line power with totalizing meters. H. F. Crotty, July 21..... *69
Shop conveyor systems speeds meter handling. M. E. Holley, Sept. 22.... *98
Weston Instruments one price recorder used to 24 points (N) July 21 *96

Microwaves (see **Communications, Controls**)

Models

Leeds & Northrup builds reactor simulator for exhibition (N) Aug. 11 *56
Model checks collector design at Consolidated Edison. Moore & Knecht, Nov. 10 ..... *78

Modernization

GE plans $47 million transformer plant modernization (N) Sept. 8.... 88
Is modernization needed for power plants? (Ed) Oct. 6..... 63
Outlook for 1959 report—Modernization to cut costs means gain in power sales Dec. 29..... 40
Plan '59—Announcing a program of reports on modernizing electrical power systems (Ed) Sept. 8..... 55
Plan '59—Modernize now for growth and profits
Modernize distribution to improve service. Allen & Olmsted, Oct. 20 .....*83-98
Neat appearance marks modern distribution Oct 20 ..... *84
Operation and maintenance are mechanized Oct. 20..... *86
Sample testing spurs meter modernization Oct. 20..... *88
Develop economical designs Oct. 20 *90
Voltage regulation engineer has new tools Oct. 20..... *92
Modern system is reliable Oct. 20 *94
Mechanization speeds modern construction, saves money Oct. 20.. *96
Safety practices go modern Oct. 20. ..... *98
Modernize generation to cut costs—report. J. J. Kearney (tables) Oct. 6 .....*71-90
How modern is American industry? Oct. 6 73
Plant retirement rate steady but may increase Oct. 6..... *76
Results of design survey show where older plants may be improved Oct. 6..... *79
Modernization opportunities in power plants are many Oct. 6.. *84
Modernize industries and street lighting Nov. 3.....*51-66
Section I K. N. McLean
Utilities spur industrial customer modernization Nov. 3..... *52
Local utility activities back up nationwide efforts Nov. 3..... *54
Power engineer plays a vital role Nov. 3 ..... *57
Section II T. R. Jordan
Street & Highway Lighting Conference Nov. 3 ..... *60
Street & highway lighting survey Nov. 3 ..... *62
Modernize service functions to meet future growth. F. J. Kovalcik (tables) Oct. 27.....*65-80
Computer changes handling of utility data Oct. 27..... *66
Modern methods bring better materials management Oct. 27.... *69
The need for communications will expand Oct. 27 ..... *72
Growing room gained in new buildings Oct. 27 ..... *74
Special vehicles cut operating costs Oct. 27 ..... *78
Modernize transmission to boost capacity. D. T. Braymer (charts & tables) Oct. 13.....*67-82
Is transmission capacity in step with system growth? Oct. 13... *68
Modernize loading of lines and generators Oct. 13 ..... *72
Increased circuit capacity and R/W conservation go together Oct. 13 ..... *74
Substations patterns are changing Oct. 13 ..... *79

Motors

Boiler feed pump motor provides vertical ventilation. Jernberg & Carlson, July 14..... *62
Elliott Co. supplies 54 motors (N) Sept. 29 79
Magnetic drives used with boiler feed pumps (N) Nov. 24..... 72
Westinghouse develops insulation for "red hot" motors (N) Nov. 10..... *84

Municipal Systems

Los Angeles Dept. of W&P rates cut by fuel clause (N) Sept. 1..... 44
Marblehead (Mass.) Municipal Light Dept. uses polyethylene cable (N) July 7 ..... *65
Pacific P&L charges Springfield, Ore. system with "repeatedly and unlawfully" violating established rates and regulations in efforts to attract customers (N) July 14..... 67
Two Ohio towns retain municipal systems (N) Nov. 17..... 66

N

Natural Resources

AEIC meeting—Report of Committee on Water Requirements. A. L. Penniman Jr., Nov. 24.....*104
Idaho Power Co.'s Brownlee Dam—big net, skimmers, installed Oct. 13.... *64
Idaho Power, embroiled in fish trap repair (N) Sept. 29..... *47
Research in California and Colorado shows water flow in springs and streams can be improved by clearing watersheds (N) Aug. 25..... *53
Seattle City Light's summer rainmaking effort fails (N) Oct. 6..... 70

New Zealand

Test site for 250-kv d-c cable (N) July 14 76

Northwestern Activities

Coal in the Northwest? Washington WP and Pacific P&L coal field in Washington (N) Sept. 8..... *58
Columbia River Corporation bill amendments proposed by Neuberger (N) Dec. 29..... 37
Columbia River Development Corp. bill—key issue looms in bustling Northwest (N) Dec. 22..... *36
Idaho Power embroiled in fish trap repair (N) Sept. 29..... *47
Mountain Sheep included in Corps plan (N) Dec. 22..... 42
NWPPA asks FPC to halt joint construction by Idaho Power and Washington Water Power of 230-kv line (N) (map) July 14..... 48
Neuberger schedules hearings on Columbia River (N) Oct. 27..... 62
Oregon commissioner orders transmission appraisal (N) Sept. 1..... 44
Oregon vote cheers private utilities (N) Nov. 17..... 66
Puget Sound survey finds support for partnership (N) Nov. 3..... 48
Washington System to ask Packwood Lake license (N) Oct. 27..... 60
Washington Water Power serves farms near Grand Coulee Dam (N) Nov. 24 ..... *66

Nuclear Power

A-power hassle "makes no sense" declares AEC chief McCone (N) Nov. 3 ..... *44
Atom lead held, Iowans told (N) Oct. 27 64
AEC authorization bill passed (N) July 21 60
AEC's first plutonium-fueled reactor goes critical (N) Sept. 1..... 45
AEC's HRE-2 operates effectively despite leak (N) Aug. 25..... 54
AEC's indemnity loopholes hit (N) Dec. 1 28
AEC and Nuclear Development Corp. preliminary design and development contract extended (N) Sept. 8..... 112
AEC selects more reactor concept study proposals (N) Dec. 29..... 36
Atomic Industrial Forum—impatience and doubt underscore session on long-range atom program (N) Nov. 24 ..... *48
Atomic Power Development Associates check on fallout sensitivity (N) Aug. 4 58
Babcock & Wilcox—Anglo-American nuclear manufacturing link formed (N) Aug. 18..... 93
Babcock & Wilcox form big closure for nuclear reactor vessel (N) July 28 72
Babcock & Wilcox nuclear laboratory goes critical (N) Oct. 20.....*104
British plan 650-Mw nuclear plant Dec. 1 69
Canada—work starts on redesigned reactor (N) Sept. 8..... *59
Carolinas Virginia Nuclear Power Associates, Inc. pressure-tube reactor unlimited in size. E. C. Fiss, Dec. 8 ..... *70
Cold war potential between Democrats and Executive branch on atomic power reactor building (N) Aug. 11. 38
Consolidated Edison's Indian Point bus, switchgear contract awarded to I-T-E (N) Dec. 22..... 135
Consolidated Edison's Indian Point plant—new mast towers above the Hudson (N) Oct. 27..... *61

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.

Consolidated Edison Co. of N. Y. atomic theory training aims at "chain reaction" spread of know-how (N) July 7 ..... *38
Democratic-backed A-bill may pass (N) July 7 36
Detroit Edison's Fermi plant gets conditional AEC backing (N) Dec. 22 ..... *40
Dresden nuclear container sphere leak-tested economically. T. H. Smith & others, Dec. 15 ..... *32
Dual-purpose reactor objections appear to be in vain (N) Oct. 13 62
EEI takes issue with A-plan (N) Nov. 17 67
ESCO produces octagonal reactor (N) July 21 ..... *102
51 companies in nuclear bid—Dollars to support a belief (Ed) Dec. 15 23
51 companies join in 11th-hr reactor bid (N) Dec. 1 27
Gas-cooled reactor proposals—political snag looms (N) Sept. 29 51
GE Hanford Laboratories research unit brightens fuel outlook (N) Aug. 25 ..... *54
GE unveils two-pronged program for competitive A-power by 1965 (tables) (N) Nov. 10 58
Geneva atom conference—no rush to atom power seen (N) Sept. 8 57
Great Britain's Calder Hall blast cause under study (N) July 14 ..... *47
Great Britain's Calder Hall blast laid to lead shot (N) Sept. 1 ..... *44
Great Britain's 500-Mw nuclear plant at Hinkley Point takes form (N) Sept. 8 ..... *112
How the atom figures in U. S. power future (N) July 21 56
Idaho's OMRE operates successfully for more than six months (N) Sept. 8 60
Implications of proposed atomic power policy (Ed) Oct. 27 57
JCAE unveils $875 million nuclear program (N) Sept. 1 45
Leeds & Northrup builds reactor simulator for exhibition (N) Aug. 11 ..... *56
N. Y. State Power Authority bids for expanding role (map) (N) Dec. 8 66
Nuclear plant estimating difficult. J. J. Kearney (chart) Nov. 17 ..... *72
Outlook for 1959 report—Industry must offer positive program to beat foes Dec. 29 ..... *40
Pacific Coast Engineering ships reactor vessel to Westinghouse reactor site at Waltz Mill, Pa. (N) Dec. 8 56
Pennsylvania P&L-Westinghouse group faces early gauntlet (N) Dec. 22 40
Piqua, Ohio plant—Committee on Reactor Safeguards objects to proposed site (N) Sept. 22 100
Radioactive waste disposal study set by JCAE (N) Dec. 22 41
Reactor research is virtually safety program. Hembree & Davenport, Sept. 8 ..... *68
Second International Conference on the Peaceful Uses of Atomic Energy—2,200 papers give world picture of nuclear advances. J. H. M. Sykes, Sept. 29 ..... *58
Southern Governors' conference approves first regional interstate compact (N) Oct. 13 62
Westinghouse reveals atomic plans (N) Nov. 3 ..... *46
Westinghouse test reactor to be operated May 1959 (N) Nov. 17 ..... *98
World Power Conference and International Commission on Large Dams—power is theme as two international groups meet Sept. 29 ..... *54

P

Poles

Chapman Chemical designs cutter for pole bandages (N) Oct. 6 ..... *106
Cobra Co. gets rights for pole preservation process (N) Nov. 17 100
Front-mounted boom speeds pole setting by Orange and Rockland Electric Co. July 7 ..... *47
Salvaged pole treatment prolongs life Dec. 22 ..... *124
Virginia E&P cuts costs by treating used line poles Dec. 22 107

Power Policy

American Farm Bureau Federation opposes more basin authorities (N) Dec. 22 42
AEC and Joint Committee on Atomic Energy—amity, but not 'till '59 (N) Aug. 4 57
Columbia River Development Corp. bill—key issue looms in bustling Northwest (N) Dec. 22 ..... *36
Comptroller General Campbell reconsiders REA ruling (N) Aug. 18 ..... *60
Comptroller General ruling could forbid REA loans to make rural electric co-ops competitive with private power (N) Aug. 11 35
Democratic election sweep portends legislative hostility for private power (N) Nov. 10 ..... *56
Dual-purpose reactor objections appear to be in vain (N) Oct. 13 62
86th Congress: new area of trial could stem from Democratic shift (N) Oct. 20 ..... *76
FPC defends 50-year licenses for hydro dams (N) Oct. 6 ..... *64
"Federal power monopoly" concept blasted by Aandahl (N) Sept. 29 50
The future role of an authority (Ed) Dec. 8 63
"Government power a threat": Corette (N) Dec. 15 ..... *25
Hells Canyon Dam—Morse blasts IPC "mistakes" (N) Dec. 15 28
IEA theme: U. S. encroachment (N) Oct. 27 ..... *64
Implications of proposed atomic power policy (Ed) Oct. 27 57
Meet and inform your congressman (Ed) Nov. 10 55
NRECA—The Ellis proposals: politics and power (Ed) Oct. 13 59
N. Y. State Power Authority bids for expanding role (map) (N) Dec. 8 66
November 4—circle it on your calendar (Ed) Oct. 20 75
Oregon vote cheers private utilities (N) Nov. 17 66
Outlook for 1959 report—Election sweep poses tough problems in several areas Dec. 29 ..... *42
Private-enterprise TVA approach to regional development suggested (N) Aug. 18 62
REA debate spurred on 2% money (N) Nov. 17 ..... *68
System acquisitions face balloting (N) Sept. 29 46
Voters' opinions can prevail (Ed) Sept. 15 39
What is our stake in politics? (Ed) Nov. 3 43

Power Supply

Cold, snow contribute to new output record for U. S. (N) Dec. 22 ..... *39
Power companies puzzled by outages in three states (N) July 21 59
Power paces boom in West Germany. Morrie Helitzer, Dec. 1 ..... *24
Truck-mounted auxiliary supplies ac, dc. H. J. Wurth, Aug. 25 ..... *67
USBR approves contract on sale to Utah P&L (N) Sept. 22 156
U. S. power pace increasing over Soviets (N) (charts & table) Sept. 1 42
Virginia—$150-million complex goes on line; electric power, railroad and coal companies integrate facilities (N) Dec. 15 ..... *30

Public Relations (see also **Advertising**)

Atlantic City Electric Co. "Grapevine 277" information idea (N) Aug. 18 62
Atomic Power Development Associates' check on fallout sensitivity (N) Aug. 4 58
Behind-scenes TV wins top award for Public Service Co. of Colorado Aug. 18 ..... *90
Christmas is light! (Ed) Dec. 22 35
Cleveland Electric Illuminating should be authorized to build overhead line in suburb of Euclid (N) July 28 50
Hubbard & Co. has open house at research laboratory (N) Aug. 11 ..... *56
Modernize industries and street lighting—report. Section I K. N. McLean, Section II T. R. Jordan, Nov. 3 ..... *51
NELPA told only public relations failure can hamper industry's progress Oct. 13 ..... *66
PCEA annual convention sees socialization of utilities losing appeal July 14 ..... *118
PEA 51st annual convention told people are key to growth (N) Oct. 6 ..... *68
Portland GE's Small Fry Dam for good will (N) Aug. 4 ..... *58
Report on public relations—How the utilities stack up with the public (charts) Aug. 25 99
Report on public relations—PEPCO's prescription for relief from three PR headaches Dec. 15 75
Report on public relation—Rates are key to public opinion (charts) Dec. 1 62
Understanding the issues (Ed) Nov. 17 65

Public Utility Districts

Grant County PUD scored in report by state examiners (N) Sept. 29 49
Grant County PUD set for dam bonus (N) Oct. 6 69
Grant County, Wash. PUD to be investigated by grand jury (N) Aug. 11 38
Kittitas PUD's proposed Cle Elum project passes second milestone (N) Sept. 8 58
SMUD orders two generators (N) July 14 67
SMUD slates financing for Upper American River work (N) Dec. 22 39

Purchasing

In all fairness to American manufacturers (Ed) Dec. 15 23
Outlook for 1959 report—How long can lower prices remain real bargains? Dec. 29 42
Report on purchasing (chart) Sept. 8 *99
TVA's purchasing plans protested (N) Dec. 8 ..... *68

R

Radio (see **Communications**)

Reclamation Bureau

Approves contract on sale to Utah P&L (N) Sept. 22 156
Fifth is big day at Grand Coulee (N) Sept. 15 ..... *42

Rectifiers

Hooker Chemical starts large rectifier system (N) Nov. 10 57
I-T-E silicon rectifier has high current capacity (N) Sept. 15 68

Regulation and Rates

Alabama Power promotional rate approved (N) Oct. 27 60
Arkansas P&L appeals, Dec. 29 89
Authority sought for quick rate hikes (N) Nov. 3 45
Baltimore G&E hike ok'd (N) July 28 52
Baltimore GUE reserve fund plan ruled "premature" (N) Aug. 18 62
Boston Edison granted 5.53% return on original cost base (N) Sept. 15 44
British Columbia Electric Co. bid trimmed (N) Aug. 4 58
California utilities urge tax normalization approval (N) Oct. 6 69
Columbus & Southern Ohio Electric Co. seeks rate change Dec. 29 89
District of Columbia plans to rework 45-year-old Public Utilities Act to serve as "model" law for states wanting to update antiquated statutes (N) Dec. 29 36
Duke Power and Louisville G&E set 1.5¢ kwhr heating rate (N) Oct. 13. 138
Florida State Railroad & Public Utilities Commission proposes appointment, 6-yr. term for commissioners (N) Sept. 8 60
Houston L&P rate inquiry proposed by City Council (N) Oct. 13 63
Kennedy opposes cut in REA interest rate (N) Oct. 6 64
Los Angeles Dept. of W&P rates cut by fuel clause (N) Sept. 1 44
Maine PUC hearing aires accelerated depreciation pros and cons (N) Nov. 24 51
Memphis-TVA rate hassle—neither side stands to gain (N) July 28 48
Mississippi dispute—Capital Electric Power Assn. and Mississippi P&L reach agreement on area concept (N) Sept. 22 100
Montana Power Co. gets 12% rate increase (N) July 21 60
Nation-wide developments pose problems and gains (N) Oct. 20 79
Ohio Power Co. seeks rate increase (N) Aug. 4 58
Oregon commissioner orders transmission appraisal (N) Sept. 1 44
Pacific Power & Light hits discrimination charge (N) July 14 67
Pennsylvania P&L ordered to begin refund (N) Aug. 4 58
Philadelphia Electric seeks railroad power hike (N) Oct. 13 63
Report on rates and regulation (chart & tables) Aug. 11 81
Report on rates and regulation—Normalization attacked in California Nov. 3 ..... *95
Report on regulation and rates—Utilities hail 'Memphis' reversal Dec. 22. *137
Tacoma City Light rate clarification study starts (N) Oct. 13 63
Union Electric seeks increase of $7,-893,000 (N) Sept. 29 50
Utah commission calls FPC institutional ad ruling "unfair" (N) Dec. 22 42
Utah P&L abandons use of residential demand meters (N) Sept. 22 100
West Penn Power seeks rate change Dec. 29 89
Wisconsin Electric Power gets 6% on net investment (N) Sept. 15 44
Wisconsin PSC starts program on services its regulates (N) July 21 127

Regulators

Mobile unit aids regulator service. Heinz Steuer, July 28 ..... *65
Pole Star regulators now marketed (N) Nov. 24 70
Use new regulator loading guide. L. M. Limpus (tables) Sept. 15 56

Relays

Federal Pacific Electric Co. enters protective relay field (N) July 14 ..... *76
Federal Pacific ships major relay order (N) Dec. 1 ..... *46
Florida Power Corp. relay changes aid system capability. Hebb Jr. & Logan, Nov. 17 ..... *79
New techniques in relaying—report
David Rea (charts) July 14 ..... *49-60
Microwave relaying covers system of 6 lines with 17 terminals. Droege & Olson, July 14 50
Dc microwave protects 3—terminal circuit. Robichau & Roby, July 14 52
Extend pilot-wire relay range. Jackson & Callin, July 14 56
Protects autotransformer tertiary. R. J. Labrie, July 14 60

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.

Research

Alcoa bonds aluminum and steel (N) July 28 72
Babcock & Wilcox nuclear laboratory goes critical (N) Oct. 20 ..... *104
Edward Valves expands research laboratory (N) July 28 74
Enemies of research—austerity, skepticism, impatience (Ed) Nov. 24 47
Extra-high-voltage breakthrough picks up momentum (N) Sept. 15 42
GE lamp research center dedicated (N) Dec. 22 ..... *130
General Electric Project EHV—test boring taken on 750-kv sites (N) Oct. 20 ..... *79
GE releases apparatus data (N) Aug. 18 95
GE to add $1 million lab to simulate overvoltage (N) July 14 80
Hubbard & Co. has open house at research laboratory (N) Aug. 11 ..... *56
Hubbard and Co. opens new research facility, July 14 ..... *72
NEMA stresses research, promotion (N) Nov. 17 ..... *69
Ontario Hydro seeks new data in 600-kv tests, Oct. 20 ..... *80
Outlook for 1959 report—Quest for new knowledge is number-one challenge, Dec. 29 ..... *38
Preformed Line Products to send field laboratory on transmission research (N) Oct. 13 ..... *86
Reactor research is virtually safety program. Hembree & Davenport, Sept. 8 ..... *68
Report on load research (charts), Nov. 24 89
Report on research, Oct. 13 121
Research clears the way for future transmission systems (Ed) Oct. 13 59
Research in California and Colorado shows water flow in springs and streams can be improved by clearing watersheds (N) Aug. 25 ..... *53
Rome Cable engineer develops brazing method (N) Dec. 1 46
Thermon-electron engine developed by MIT professors produces small quantities of electricity with 12% efficiency, July 21 ..... *70
Westinghouse test reactor to be operated May 1959 (N) Nov. 17 ..... *98

Right-of-Way

ARWA cites management's role, July 14 ..... *114
Chemicals used by PS of Colorado clear rugged R/W 5 years (N) Nov. 17 ..... *71
EEI begins joint study of air pollution, tree problems (N) Sept. 1 43
Helicopter used to spray right-of-way by Kentucky Power, Dec. 22 ..... *108
Modernize transmission to boost capacity—Increased circuit capacity and R/W conservation go together. D. T. Braymer, Oct. 13 ..... *74
Report on right-of-way, Aug. 4 ..... *121
States split on relocation payment rulings (N) Oct. 6 ..... *66

Rural Electrification

Engineer designs economical grain dryer, July 14 ..... *111
Farm Better Electrically Program backed by utilities, Sept. 22 152

Steam Stations (see also **Capacity Additions**)

Alcoa's Warrick plant—aluminum used extensively (N) Oct. 27 ..... *87
Hawaiian Electric's Hicks station uses 8800 al louvers (N) Nov. 17 ..... *102
Kittitas County PUD's proposed Cle Elum project passes second milestone (N) Sept. 8 58
Louisiana P&L Sterlington steam plant trouble results in outage on Middle South System (N) Aug. 4 55
National Power Conference speaker Krieg urges new plant design approach, Oct. 20 ..... *81
N.Y. State E&G's Milliken operations logged at Power Exhibition (N) Dec. 22 ..... *130
Niagara-Mohawk Power Corp.'s Huntley Station—plant modernization ups capacity. P. S. Helfter, Dec. 1 ..... *36
Pacific G&E plans 12.5-mw geothermal unit (N) Aug. 4 56
PEA told Metropolitan Edison's Portland plant start successful (N) Nov. 3 50

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.

Plan '59—Modernize now for growth and profits
Modernize generation to cut costs —report. J. J. Kearney (tables) Oct. 6 ....*71-90
How modern is American industry? Oct. 6 73
Plant retirement rate steady but may increase, Oct. 6 ... *76
Results of design survey show where older plants may be improved, Oct. 6 .... *79
Modernization opportunities in power plants are many, Oct. 6 .... *84
Public Service E&G's Bergen Station gets air preheaters (N) Aug. 18 .... *93
Southern California's Edison's Huntington unit on line (N) July 28 51
Soviet shift from hyrdo to steam plant construction (N) Dec. 1 29
Tampa Electric Co. Unit 1 at Gannon Station goes in for $112 per kw. Hopkins & Jones, Sept. 15 47
What's best way to compare power plants? Engineer-professor suggests power plant criterion. Theodore Baumeister, Aug. 25 72

Storms
Cold, snow contribute to new output record for U.S. (N) Dec. 22 .... *39
Hurricane Helene hits Carolina P&L coast area (N) Oct. 6 .... *69
"Worst" storm damage will bring changes in transmission and distribution design (N) Aug. 4 .... *52

Substations
Allis-Chalmers designs mobile substation fence (N) Dec. 15 56
Basic structures cut substation cost. M. A. Harkness, Dec. 1 .... *40
British use concrete substations. John Shinn, Dec. 15 .... *31
Cincinnati G&E precast concrete trench opens easily. C. W. Beringhaus, Sept. 29 .... *68
Commonwealth Edison's Goodings Grove substation is Chicago area's first at 345-kv. Schroeder & Tosch, Aug. 25 .... *58
Detroit Edison—three ways to limit circulating current in paralleled regulators. H. C. George, Aug. 25 ... *62
Enclosure helps substation appearance (N) Aug. 25 .... *74
Enclosures have aluminum construction (N) Nov. 3 78
Guides for maintaining industrial substations
1. Tests for oil and insulation, Aug. 25 .... *69
Louisiana P&L vacuum tube and SF_6 interrupters switch 115-kv subs H. B. Balfour Jr., Dec. 8 .... *78
Mobile unit tests substation load at West Penn Power. Black & Gilbert, Dec. 22 .... *102
Modernize substation grounding practice. J. E. Hoopes, Aug. 25 .... *66
Modernize transmission to boost capacity—Substation patterns are changing. D. T. Braymer, Oct. 13 .... *79
Plan your transformer maintenance (tables) Dec. 15 37
Public Service Electric & Gas Co. Newark substation will have eye appeal, Nov. 10 .... *67
Puget Sound P&L 9,000-kv sub rides highway on trailer. P. F. Hargreaves, July 21 .... *68
Small portable substations help three ways at Toledo Edison Co. George Roberts, July 7 47

Switches and Switching
AEIC meeting—report of Committee on Electric Switching and Switchgear, Nov. 24 .... *94
Bryant Electric wall switch has new look (N) Sept. 15 .... *64
Louisiana P&L vacuum tube and SF_6 interrupters switch 115-kv subs. H. B. Balfour Jr., Dec. 8 .... *78

System Engineering
AIEE computer session in Canada to explore digital uses (N) Aug. 4 140
The analog or digital computer? Squires & Rindt, July 7 .... *53
Automatic data handling next step toward ultimae in station operation. Hammond Lacd Jr., Dec. 22 .... *45
Automatic data logging expected to cut costs at NYSE&G's Milliken station. S. A. Lyon, Dec. 22 .... *46
Commonwealth Edison Co. merger motivates standardized trouble reports. G. G. Bailey, Sept. 8 .... *62
Computer data swap urged (N) Sept. 29 43
Computer, Electrodata 101 analyzes loop circuit. Pollock & Taylor (tables) Dec. 22 .... *43
Computer solves dc load flows. H. D. Hurless, Dec. 8 .... *76
Computer speeds solution of broken conductor crossing clearance for U.S. Bureau of Reclamation. Swain & Austin (charts) July 7 48
Computer users offered programs—AIEE conference, Oct. 20 82
Digital computer calculates transient stability problems. G. W. Stagg & others, Sept. 1 .... *49
Digital computer program saves in controlling voltage on feeders. H. K. Amchin & others, Sept. 15 .... *48
Electrade—a name for a new program (Ed) Oct. 6 63
Extend use of digital computers to automate system studies. Tsai Hwa Lee (chart) Nov. 10 68
Florida Power Corp. relay changes aid system capability. Hebb Jr. & Logan, Nov. 17 .... *79
Flow-Matic codes digital computers automatically (N) Sept. 29 74
I-T-E expands network analyzer (N) July 28 .... *70
Improve peaking capacity with air storage. Kenneth Razak (charts) Dec. 8 76
Industrials use a-c network board. Young & Dunki-Jacobs, July 21 .... *88
Minneapolis-Honeywell develops frequency type telemetry system (N) Sept. 22 128
Modernize service functions to meet future growth—Computer changes handling of utility data. F. J. Kovalcik (table) Oct. 27 .... *66
SEE engineers scan system needs (N) Dec 1 .... *30
A word of caution on computer savings (Ed) Nov. 10 55

T

Taxes
California PUC sets tax hearings (N) July 21 60
California utilities urge tax normalization approval (N) Oct. 6 69
ECAP tax hearing—early postponement foreseen (N) Dec. 15 28
The ECAP tax ruling: only the beginning? (Ed) Aug. 4 51
IRS slates session on ad tax ruling (N) Nov. 24 66
Maine PUC hearing airs accelerated depreciation pros and cons (N) Nov. 24 51
NARUC urges that ECAP ad ruling be dropped (N) Dec. 15 .... *24
Nashville Electric Service agrees to double tax equivalent payments (N) Aug. 11 38
Nebraska payments in lieu of taxes legalized (N) Nov. 17 66
No tax credits for preferred-stock redemption (N) Oct. 27 62
Report on rates and regulation—Normalization attacked in California, Nov. 3 .... *95
Supreme Court decision in Buffalo closes tax loopholes (N) Sept. 29 ... 50
Tax repeal brings break to buyers of coal, oil (N) July 14 47
Utilities to have after-the-fact say in IRS ruling on ECAP advertising (N) Aug. 25 56
Utility assessments under fire (N) July 21 .... *57

Television
Behind-scenes TV wins top award for Public Service Co. of Colorado, Aug. 18 .... *90

Tennessee Valley Authority
Coal price rises (N) Sept. 29 49
Editors asked to back TVA ad (N) July 28 49
Financing bill pigeonholed in last lap of House action (N) Aug. 11 .... *34
Gateway marker (N) July 21 .... *60
Kentucky, Georgia companies hope to counter turn-about on TVA's fringe (map) (N) Dec. 15 27
Kerr bill push begins (N) Aug. 4 56
Kerr bill—Rayburn cracks the whip on TVA bond financing bill (N) Aug. 18 61
Neither side stands to gain in Memphis-TVA rate hassle (N) July 28 .. 48
Plans no expansion, says Board Director Jones (N) Nov. 17 71
Purchasing plans protested (N) Dec. 8 *68
Report stirs controversy (N) Sept. 29. 48
Swiss firm lands order for 3 generators (N) Dec. 15 27
Two directors, Dr. Frank Welch ,and Arnold Jones, confirmed by Senate (N) July 21 .... *59

Testing and Tests
American Chain & Cable inspects with X-and gamma-rays (N) Oct. 6 ....*102
Appalachian Power saves time locating street lighting circuit breaks. G. H. Broyles, Dec. 22 .... *95
Delta-Star buses run gamut of tests (N) Dec. 1 .... *44
Dresden nuclear container sphere leak-tested economically. T. H. Smith & others, Dec. 15 .... *32
Electronics speed kwhr meter test. C. A. Antonelli, Sept. 1 .... *51
Field method finds arc-formed gas in oil-filled transformers. D. Harrison, Aug. 4 .... *94
Guides for maintaining industrial substations
1. Tests for oil and insulation, Aug. 25 .... *69
High-current, voltage test set marketed by Multi-Amp Corp. (N) July 7 62
Impulse generator tests apparatus at Ontario Hydro. L. Lisnchyna, Dec. 22 100
Mobile unit tests substation load at West Penn Power. Black & Gilbert, Dec. 22 ....*102
Modernize distribution to improve service—Sample testing spurs meter modernization. Allen & Olmsted, Oct. 20 .... *88
Outlook for 1959 report—Sample testing leads way, other improvements coming, Dec. 29 .... *44
Salt fog testing program established by Preformed Line Products Co. (N) July 28 .... *72
S&C Electric's test trailer uses shielded room (N) Oct. 20 ....*111
Spectrometer, helium spot cable leaks. Collins & Gillette, Dec. 22 .... *94
Westinghouse turbine spindle submitted to high temperature test (N) Nov. 24 76

Transformers
Allis-Chalmers reveals four transformer developments (N) Oct. 13 .. 96
Allis-Chalmers top capacity transformer designed for small space (N) Nov. 3 .... *70
Aluminum extruded tanks developed by Reynolds (N) Nov. 24 .... *70
Army Corps of Engineers includes test-and-repair clause in bid invitational—international storm brews (N) Aug 18 61
Assembly line speeds repairs at Commonwealth Edison Dec. 22 .... *73
Baltimore G&E puts vapor gas transformer into operation (N) July 21 .. 102
Canadian Westinghouse Co. to build two large transformers (N) Sept. 8. 90
Detroit Edison orders first self regulating transformer (N) July 14 .... *81
Dynagap arrester made component of transformer (N) July 21 96
Field method finds arc-formed gas in oil-filled transformers. D. Harrison, Aug. 4 .... *94
GE aphonic enclosure, other transformer developments (N) Oct. 27 .. 87
GE plans $47 million transformer plant modernization (N) Sept. 8 88
GE reports advancements in transformer field (N) Oct. 13 92
GE will ship mobile transformer (N) July 28 70
German 660-mva bank (N) Sept. 29 .. 79
Kansas City P&L Co.'s old transformer becomes modern sub. J. E. Hoopes, July 7 45
Line Material accepting quantity orders on self-regulating transformers (N) Aug. 18 95
Line Material Industries prepares first SRT for saipment (N) Sept. 29 .... *76
Minimize fluctuations with special designs. W. C. Sealey, July 21 .... *87
Mobile 75-kva unit provides flexibility at New York State E&G. H. E. Tuthill, Aug. 18 .... *84
Pennsylvania Transformer Div. transformer provides regulation in 3 phases (N) Dec. 22 134
Pennsylvania Transformer reduces prices of LTC transformers (N) Sept. 22 ....*122
Plan your transformer maintenance (tables) Dec. 15 37
Power transformer sound level reduced by Westinghouse (N) Sept. 29 74
Pressure relief device has reseal features. M. Aronson, Aug. 4 .... *92
Pressure relief unit goes on McGraw-Edison power transformers (N) July 21 102
Public Service Electric & Gas Kearny Generation Station transformer failure (N) July 21 59
RT&E builds transformer for underground distribution (N) Oct. 13 .... *86
Reflective numeral markers tag transformers at WWP Dec. 22 ....*110
Sangamo Electric BH transformer (N) July 14 76
Standard Transformer has new design (N) July 21 96
Standards help meet new loads. G. P. Vest (charts) Sept. 8 .... *66
Study economic transformer loading (N) Nov. 10 .... *63
Westinghouse adjusts prices (N) July 28 70

Transmission
All-aluminum towers planned by PSE&G, Alcoa (N) Nov. 17 98
Are transmission lines obtrusive? (Ed) July 7 35
Atlantic City Electric Co. converts 34.5-kv stub feeder to 69-kv suspension type line. M. J. Doody, July 7 .... *44
CIGRE meets in Paris—focuses on transmission. J. H. M. Sykes, July 7 .... *40
Cable rig aids 230-kv stringing Dec. 22 .... *86

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.

Calibrated stopwatch checks sag. P. C. Evans, Dec. 22 ..... *82
Computer speeds solution of broken conductor crossing clearance for U. S. Bureau of Reclamation. Swain & Austin (charts) July 7 48
Consumers Power explores 345-kv economics. Small & Brager (map & table) Nov. 10 64
Consumers Powers Co.'s 46-kv reclosers improve service economically. C. R. French, Aug. 4 ..... *59
Extra-high-voltage breakthrough picks up momentum (N) Sept. 15 42
Fogbowl keeps contaminants out Aug. 11 ..... *47
Four 9,000-ft oil-filled cables link states across Lake Champlain Sept. 29 ..... *52
General Electric Project EHV—test borings taken on 750-kv sites (N) Oct. 20 ..... *79
Houston P&L's line across Galveston Bay—tower line wins out over submarine cable. J. H. Horn, Aug. 4 ... *62
Kansas City P&L bores into 161-kv job (N) Sept. 29 ..... *49
Lightning pre-strike current determines outage rate—AIEE Summer General Meeting July 23 ..... *54
Moon Lake Electric Assn., Inc. proposed 115-kv line—REA loan raises 64,000-kw question (N) July 14 46
NWPPA asks FPC to halt joint construction by Idaho Power and Washington Water Power of 230-kv line (N) (map) July 14 48
New methods speed line construction. C. F. Hochgesang (report) Aug. 18 ..... *65-80
Helicopter dispenses with roads in transmission line building. O. N. Kulberg & others, Aug. 18 ..... *66
Copter speeds distribution lines. M. A. Kirsch & others, Aug. 18 69
Commercial copters carry 2-ton loads Aug. 18 70
Construction techniques modernized for EHV Aug. 18 ..... *70
Big augers, cranes speed lines. J. F. Servis, Aug. 18 ..... *73
Holds down 230-kv line costs. Allen & Roberts Aug. 18 ..... *78
9th annual electrical industry forecast 1958-1975. A. J. Stegemen
Ohio Power Co. speeds live-line splicing with home guide and clamp. G. H. Funk, Sept. 1 ..... *54
Ontario Hydro seeks new data in 600-kv tests Oct. 20 ..... *80
Oregon commissioner orders transmission appraisal (N) Sept. 1 44
Outlook for 1959 report—Today's task is to build for a big tomorrow Dec. 29 46
Plan '59—Modernize now for growth and profits
Modernize transmission to boost capacity. D. T. Braymer, (charts & tables) Oct. 13 ..... *67-82
Is transmission capacity in step with system growth? Oct. 13 ..... *68
Modernize loading of lines and generators Oct. 13 ..... *73
Increased circuit capacity and R/W conservation go together Oct. 13. *74
Substation patterns are changing Oct. 13 ..... *79
Preformed Line Products to send field laboratory on transmission research (N) Oct. 13 ..... *86
Public Service Co. of Indiana, Inc., tower design proved in load test (N) Sept. 15 ..... *41
Rebuilding H-frames saves money at Virginia E&P Dec. 29 ..... *60
Research clears the way for future transmission systems (Ed) Oct. 13. 59
69-kv spacing carries 138-kv line for Gulf States Utilities. J. D. Jordan, Sept. 1 ..... *53
Transmission towers moved on rollers over special tracks Dec. 22 ..... *84
230-kv line wood pole structures feasible for 345-kv. R. G. Yerk, (chart) Dec. 15 ..... *34
Virginia — $150-million complex goes on line; electric power, railroad and coal companies integrate facilities (N) Dec. 15 ..... *30
Woodpole arms and braces reduce 230-kv H-frame line cost at WWP. Earl Baughn, Dec. 1 ..... *31
World Power Conference and International Commission on Large Dams—power is theme as two international groups meet Sept. 29 ..... *54
"Worst" storm damage will bring changes in transmission and distribution design (N) Aug. 4 ..... *52

Trucks and Trailers (see also **Materials Handling**)

Aerial cage aids yard-light maintenance. Dabney & Rosebrock Aug. 11. *48
Dertoit Edison uses gully emptier to pump sludge from clogged manholes. E. C. Marschner, Dec. 22 ..... *108
Front-mounted boom speeds pole setting by Orange and Rockland Electric Co. July 7 ..... *47
Mobile unit aids regulator service at Heinz Steuer July 28 ..... *65
Modernize service functions to meet future growth—Special vehicles cut operating costs. F. J. Kovalcik, Oct. 27 ..... *78
Puget Sound P&L 9,000-kv sub rides highway on trailer. P. F. Hargreaves, July 21 ..... *68
Trailer handles transformers for Niagara Mohawk Power Dec. 22 ..... *91
Truck-mounted auxiliary supplies ac. dc. H. J. Wurth, Aug. 25 ..... *67

Turbines

AEIC Meeting—Report of Committee on Power Generation. G. R. Milne, Nov. 24 ..... *53
Allis-Chalmers turbine parts for Noxon Rapids Hydroelectric Development dwarf two men (N) Sept. 15. *67
B-L-H turbines start operations at Big Bend (N) Dec. 8 86
Eddystone Div. awarded $2 million turbine contract for East Pakistan hydroelectric plant (N) Sept. 22 126
Eliminate housings on large turbines. G. E. Klapper, July 7 ..... *45
Great Britain's Calder Hall blast laid to lead shot (N) Sept. 1 ..... *44
Great Britain's Calder Hall blast under study (N) July 14 ..... *47
Phenolic resin replaces rubber in bearings. Lloyd McWilliams, Sept. 8 .... *74
Smith Co. builds Wilson Dam turbines (N) Dec. 29 70
Smith, S. Morgan Co. has order for 1009-ft head turbines (N) July 14 .. 81
Smith, S. N. to supply Carolina P&L with 33,000-hp turbine (N) Oct. 20. 110
Westinghouse ships turbine-generator to Public Service Electric & Gas' Bergen station (N) Sept. 15 68
Westinghouse turbine spindle submitted to high temperature test (N) Nov. 24 76

V

Voltage Regulation

Digital computer program saves in controlling voltage on feeders. H. K. Amchin & others, Sept. 15 ..... *48
How much overload can your regulators take? Brem & Studer, (tables) Aug. 25 64
Modernize distribution to improve service—Voltage regulation engineer has new tools. Allen & Olmsted, Oct. 20 ..... *92
Three ways to limit circulating current in paralleled regulators—from Detroit Edison. H. C. George, Aug. 25 ..... *62
Utilities urged to study flicker limits (chart) Nov. 3 49

W

Welding

Welders repair bearings quickly and economically. A. J. McCubbin, July 21 ..... *118
Westinghouse Electric ultrasonic seam welder (N) Dec. 22 134

Wiring

Alcoa reduces price on aluminum magnet wire (N) Oct. 13 100
Alumoweld facilities to be increased by Copperweld Steel Co. (N) Aug. 25 74

(Ed) Editorial. *Illustrated. (N) News. (R) Reference Sheet.
